ABOUT SICAGEN GROUP

USD 100 million
plus company

Listed on
NSE & BSE
stock exchanges

6 manufacturing
plants

Over
50 offices
& warehouses

Committed team of
400 PLUS
employees

More than
10000
customers

Sicagen is a USD 100 million plus company with presence across India and South East Asia. Various business divisions of Sicagen, through their solutions and service offerings, enable infrastructure and allied industries to improve business performance.

One can trace the roots of this promising group way back to the 1940's. The leading company then marketed steel tubes and pipes imported from Britain. In the latter half of the twentieth century, India witnessed rapid industrialisation. Sensing the market needs, the group diversified into various fields.

In the first decade of the twenty-first century, different activities related to the infrastructure industry were

consolidated under the banner of Sicagen. This independent company is listed on the NSE and BSE stock exchanges and enjoys good recognition.

Headquartered in Chennai, Sicagen offers quality products and efficient services through its six manufacturing plants, over 50 offices and a committed team of 400 plus employees. Today, the company is being managed by a team of experienced professionals who firmly believe in transparency in operations, building long-term relationships and greater reliance on technology to provide efficient services.

With a firm footing in several areas of business, Sicagen has earned customers' trust as an efficient solution provider. Sicagen is well-known for its customer-centric approach, technologically superior yet cost-efficient solutions, reliability of offerings and greater transparency in business operations. With a high level of customer trust, Sicagen is one of the fastest growing companies in all spheres of its business.

ISO 9001:2015

Quality Management Certification

Sicagen is accredited with ISO 9001:2015 certification from Bureau Veritas, UK for its various business divisions. The certification is applicable to the company's operations at 29 locations consisting of manufacturing units, warehouses and branch offices across India. This certification reinforces our relentless focus on ensuring consistent quality, serving customers with greater efficiency and continuous improvement of quality management processes. For Sicagen, ISO 9001:2015 has greater significance as we are one of the few companies in the supply of construction materials to receive this certification.

Businesses we are in

Building Materials

Steel, Structural Tubes, Seamless Tubes, ERW Tubes, PVC Pipes & Conduits, Roofing Sheets, Power Cables, Electrical Cables and Wires, and Cement

Power & Control Systems

Sales, Servicing, Retrofitting, Power Management, Training and Turbine R&M Services

Speciality Chemicals

Chemicals for - Cooling Tower Water Treatment, Boiler Water Treatment, RO Plants, and Colouring Agent for DAP

Industrial Packaging

Manufacturer of PU coated drums and barrels for oils, chemicals, paints and cable reeling drums

Boat Building

Special types of custom-built vessels and dumb barges

Precision Fabrication

(Subsidiary company - Danish Steel Cluster P. Ltd.)
World-class facility for speciality machining and fabrication of components in SS, Aluminium, Carbon Steel, etc.
Certified with EN15085-2 CL1

Power Cables

(Subsidiary company - Wilson Cables Pvt. Ltd., Singapore)
Flexible, Power, Fire Resistant, Coaxial, Shipboard, Industrial, Oil & Gas, Instrumentation, PVC Insulated (armoured/unarmoured) and XLPE Insulated (armoured/unarmoured) cables

VISION

To inspire,
innovate and
lead in
infrastructure
solutions.

ABOUT BUILDING MATERIALS DIVISION

Your reliable partner for building materials

Sicagen offers innovative solutions and efficient services to the construction sector and infrastructure projects through its proven business model.

Building Materials Division is a unique business concept wherein a variety of materials such as pipes, steel, cement, cables, etc., required for construction are sourced by Sicagen from different manufacturers and supplied to you. **We act as your 'single source' supplier and competently interface between different manufacturers and infrastructure project companies / contractors.** The business model has evolved after several years of experience in supplying materials for construction.

Our role enables various EPC companies to successfully complete projects in a time-bound manner while ensuring reliability of materials used. Sicagen is one of the first companies in India in this segment to offer integrated supply of materials and services for the construction industry. By this virtue, Sicagen is also one of the largest and the most preferred companies in the segment.

Who can benefit

Sourcing materials from Sicagen helps small, medium and large companies to control their costs and ensure faster completion of projects.

Companies handling multiple project sites simultaneously in different parts of the country can benefit through centralised purchase yet decentralised deliveries.

And we add great value even for small and medium scale companies.

Over 360,000 sq.ft.
of warehousing

Over 100 sourcing points

Pan-India operations
through 50 offices

Large annual sales volume

Pipes and Tubes

≈ 80000 MT

Construction Steel
≈ 25000 MT

Cables & wires

≈ 16000 km

Cement
≈ 11500 MT

PVC & UPVC
≈ 1 million meter

Build anything. Confidently.

If you are in the construction or fabrication business, we are the right partner for you for all types of materials. High-rise buildings, complexes, townships, amenities, infrastructure projects, factory buildings, processing plants - whatever your construction project, we have the right products for you. By associating with us, you can experience several benefits.

- Single source for a variety of materials of several brands - Saves time. Saves coordination efforts.
- Large quantities available - Reduced project hold-ups due to material shortage.
- Genuine quality - To make your project a landmark achievement and enhance your reputation.
- Consistent supply - Same consistent quality every time and assured continuous supply ensures peace of mind.
- Reputed brands - Ensure value for your money.
- Professional services - Technically qualified team to help you select the right materials and right brands.
- One of the largest companies in the sector with highest reliability and transparency in dealings.
- High level of automation to manage operations to serve you most efficiently.
- Quick response - Right from your enquiry and throughout the entire process.
- Network of offices and warehouses - Trained team to assist you quickly.

SINGLE SOURCE FOR GENUINE QUALITY

CONSISTENTLY

Enabling construction projects to achieve quality, speed and profitability

Here is an indicative list of various products being offered by us. For special requirements of challenging projects, Team Sicagen is always willing to help customers with customised solutions.

Such critical requirements are responded to jointly in consultation with our partner manufacturing companies. This way, you are sure to get the optimal and cost-effective solution.

PVC Pipes & Conduits

Products

- UPVC column pipes
- CPVC/UPVC/SWR pipes & fittings
- Agri pipes & fittings
- Underground pipes & fittings
- Silent SWR pipes & fittings
- HDPE pipes
- Blue casing pipes
- PVC manholes & covers
- CPVC & UPVC ball valves
- Butterfly valves
- Inspection chambers
- Electrical conduit pipes & fittings
- Electrical casing pipes

Cement

Products

- Ordinary Portland cement 43 Grade / 53 Grade
- Portland Pozzolona cement
- Sulphate resistant cement
- Portland slag cement

Cables & Wires

Products

- FR LSH/HFFR PVC insulated cables
- Flexible industrial cables
- 3 core flat cables (PVC/XLPE)
- LT PVC power & control cables
- Communication cables
- Industrial flexible cables
- LT & power cables
- Fire resistant cables
- Shipboard cables
- Instrumentation cables
- Cables for oil & gas industry

ERW Tubes

Applications

- Process industry
- Fire fighting
- Plumbing
- HVAC
- Cold storage
- Irrigation
- Boilers

Seamless Tubes

Applications

- Oil & gas
- Boilers
- Process industry
- Heat exchangers
- Line pipes
- Super heaters
- Casing pipes
- Condensers

CR / HR Sheets

Applications

- Bridges
- Dams
- Civil structures and industrial fabrication work

Roofing Solutions

Applications

- Warehouses
- Parking sheds
- PEB roofing solutions
- Terraces

Structural Tubes

Products

- Rectangular hollow sections
- Square hollow sections
- Circular hollow sections
- Galvanized hollow sections

Construction Steel

Products

- TMT bars
- Angles
- Channels
- Rounds
- Beams
- Plates

Your order life cycle at Sicagen

When you select us as your partner, you are sure to experience professional service and prompt support at every stage of your order life-cycle.

WE HAVE AN ANSWER

FOR EVERY CONSTRUCTION NEED

Knowledge sharing

At Sicagen, we believe in always keeping our customers at the forefront of technology. Sicagen firmly believes in sharing knowledge with its customers and educating them on the advent of new technologies, products, processes and emerging trends in respective fields. For this, we regularly organise Customer Meets for different industry verticals in various parts of the country.

In these sessions, knowledge on the latest advancements in our product offerings and services is imparted to our customers from across a wide spectrum of industry verticals. The challenges faced by them at their level are discussed and understood by Sicagen. Our customers have often expressed their utmost satisfaction after attending the Customer Meets and have appreciated the sessions wholeheartedly.

A few of our esteemed customers

Our customers span across various industry verticals throughout India. For large EPC companies, we are the right partner who shares the same corporate governance and ethos as that of their businesses. At the same time, for small enterprises, we are an advisor and partner who helps them to build reliability in construction or fabrication while enhancing operational profitability.

BEING A LEADER, BEING WITH THE LEADERS

Our values

**CUSTOMER
FOCUS**

INTEGRITY

COMMITMENT

TEAMWORK

EXCELLENCE

Associations with the leaders

We represent industry leaders in several product categories. While partnering with them, our expert team evaluates each one on several parameters. A few of these parameters include quality, consistency in supply and specifications, adherence to the latest manufacturing processes, reliability, material availability, technical support and so on. Once this is ensured, a proper communication channel and supply chain are established, so that we can promptly respond to our customers' requirements.

Sicagen, being one of the largest customers of these companies, obviously receives priority treatment and prompt service support. This, in turn, helps us to serve our customers efficiently. Our long-standing relationship with the principal companies is your assurance of the right quality at the right time and the right price.

Advisory services

When you select us as your partner for building material supplies, you can expect a lot more than just material supplies. Our role begins with understanding your requirements and we are with you at every stage of your project execution. The right advice from our experts helps you in managing your project in a time-bound and cost-effective manner. You can always count on the Advisory Services from our team of experts in construction technology, material sciences, structural engineering, project planning and logistics.

Our Advisory Services are helping our customers across India to save material costs due to appropriate selection of sizes, ensure higher reliability of construction and avoid project hold-ups due to material shortages.

COST-EFFECTIVELY

Using advanced technology. Ensuring efficient services.

Sicagen, being a professionally managed company, believes in effectively using technology for streamlining operations. All our operations are managed through an ERP system based on Oracle platform using Cloud technology.

For our customers, this means greater transparency and efficient services. As a Sicagen customer, you can expect various benefits such as:

- Quick response to your enquiry, within 24 hours
- Quotation within 24 hours for routine requirements of standard materials
- Faster processing of orders
- Instant data on ready stock of materials in warehouses across the country
- Quick deliveries of standard materials

- Commitment to delivery schedules in case of large orders or non-standard specifications
- Quick, real-time order tracking through our Sales Engineers
- Up-to-date account statements
- High data security and unhindered operations irrespective of location

Sicagen is one of the pioneering companies in this segment to use ERP and Cloud technology to manage its operations. We are confident that your experience of transactions with Sicagen will be effortless, compared to other players in the market. We welcome you to experience the power of technology.

Technical Advisory Services

Rapidly changing technology demands advanced materials and better manufacturing techniques. As a progressive company, many times, you come across such challenging situations. But don't worry. For most critical and challenging requirements, our team of experts invests a lot of time in understanding your project parameters. Depending on the complexity of the project, experts from our principal manufacturers are also involved. Such requirements are carefully analysed and evaluated jointly with your project engineering team. Once the requirement parameters are established, we assess various possibilities and find the best answer for the desired outcome.

Once this is done, a sample lot is tried and tested for suitability for the intended application. This approach helps in ensuring expected results and in avoiding rejection. Sometimes, in case of large projects, such an approach also helps in saving significant costs due to use of material with optimum specifications.

National Presence

Sicagen has pan-India presence through its own offices and warehouses at over 50 locations. A technically competent and trained team of sales engineers is always on its toes to extend prompt support to our customers. All the offices are connected to the central ERP through intranet, allowing quick access to information on material availability in warehouses. The Sicagen team also updates you on the status of various large project orders. By way of our extensive presence, you get localised support and service while receiving benefits of dealing with a large national player.

Our national presence particularly helps large construction companies handling multiple projects at various locations simultaneously. With Sicagen, you are sure to get consistent quality, assured supply and best-in-class service at each project site. Every time.
